

PRODUCT INFORMATION

CLEANING AGENTS

C2 ALLTOP

WEAKLY ALKALINE GENERAL CLEANER
FOR MANUAL AND AUTOMATIC PROCEDURES

Range of use

For the cleaning of all water-tolerant surfaces, e.g., painted, plastic, steel and others. Excellently suited also for washing areas and the like where impurities are plentiful. Appropriate for the washing of glass surfaces.

Features

A freshly fragrant, colourless, easily rinsed concentrate which is long-lasting in use. A broad-based product which, by changing the amount used, also suits very dirty surfaces in general cleaning. Also for eliminating ingrained and greasy impurities. Excellent also for cleaning sanitary spaces. Does not contain colour or preservatives. Also available as unscented which has the right to use **the co-operational emblem of the Asthma and Allergy Association.**

Approved by the National Food Agency in Finland on 27.5.2002.

Residual research by the Lahti Research Laboratory on 18.1.01.

Product declaration

Active ingredients

Anionic tensides
and polycarboxylate < 5 %

Non-ionic tensides 5 – 15 %

(These tensides are in accordance with EU directives.)

Perfume (or unperfumed)

Effect

Lower water surface tension and detach contaminants; polycarboxylate softens the water.

Lower water surface tension and detach contaminants.

Makes labour pleasant.

Product pH 9.5 Use solution pH (5 ml / 5 litres) approx. 8.0

Instructions for use

Maintenance cleaning: 5 – 10 ml / 5 litres water (water hardness at 0 – 6 ° dH). Surfaces should be cleaned. Rinsing is not required with smaller amount.

Difficult sites: 20 – 50 ml / 5 litres water. Rinse. Action duration of 5 – 10 min. eases detachment of impurities. Use a distribution pump (4472207) in order to avoid excessive amounts, or a 1-litre bottle spigot with a capacity of 10 ml.

Window-washing: 5 ml / 5 litres water.

Textile washing: 40-100 ml/3 kg laundry.

Note

The use of protective gloves is recommended.

Application objects / working methods

Product code/ Package size

6 x 1 litre	410621	EAN 64 1260 410621 9
3 x 5 litre	410623	EAN 64 1260 410623 3
200 l	410629	

Storage

Warm storage. Stores for 5 years from date of production.

Environmental impact

This product is biologically decomposed with ease and has been awarded with the 'Swan' environmental label.

Waste disposal

Small concentrations disintegrate at the water purification plant. Empty, rinsed receptacles can be used either as material or energy. Transport packaging recyclable, brown corrugated cardboard.
