

PRODUCT DATA SHEET

SURFACE CLEANING AND DISINFECTION

EASYDES

DISINFECTIVE SURFACE DETERGENT

Uses

Easydes is a microbicide-effective and quick-acting ready-to-use surface disinfectant providing a good washing result. Easydes suits all alcohol-resistant materials: contact surfaces, equipment (including phone and computer keyboards) and instruments.

Properties

Easydes is an ethanol-based disinfecting compound that contains washing ingredients. The product gives a quick microbicidal response and effectively destroys bacteria, viruses and fungi. Disinfecting power and good cleaning result are easily reached even at visibly fouled surfaces. Easydes effectively removes dirt and grease. Several packaging options for different applications. Spray bottle is easy and fast to use – just spray and wipe. The microbicidal power of the product has been tested: University of Helsinki, Department of Public Health prEN13713 for bactericidal power, EN 1650 for fungicidal power and tests for virucidal power. The efficiency of the product against an MRSA strain has also been tested. In case of Norovirus and Clostridium difficile epidemics use of Klorilli and Erisan Oxy+ disinfectant is recommended.

Ingredients

Ethanol 55-60 w-%	biocide
Tertiary butanol < 2%	denaturant
Quaternary ammonium chloride < 0.5%	biocide, cleaning effect
Alkyl amine < 0.5%	biocide

Product pH 10.

Instructions for use

Easydes disinfective detergent is a ready-to-use solution. Spray bottle: Spray disinfectant on the dirty surface and dry it with a cleaning cloth or disposable towel. You can also spray the product directly on the cleaning cloth and use it to wipe the surface, such as computer keyboard. Pre-washing is not needed. If you want to ensure there will not be any residue, you can wipe the cleaned area with a clean, damp cloth. Usually surface rinsing is not required.

Notes

Do not use on hot surfaces. Flammable.
Use biocides safely. Always read the label and product information before use.

Package size/ product code

150 ml spray bottle	8221	EAN 6412600082210
500 ml bottle	8081	EAN 6412600080810
735 ml spray bottle	8183	EAN 6412600081831
5 l can	8082	EAN 6412600080827

Storage

In room temperature. Shelf life 3 years.

Ecological information

Packages are produced of environmentally friendly, fully recyclable PE-HD plastic and can be incinerated. The product is biodegradable.

Country of production

Finland.
