

PRODUCT INFORMATION

PERSONAL HYGIENE

PROSEPT

CLEANSING EMULSION

Range of use

ERISAN PROSEPT is an ideal product for frequent hand wash, washing of bed-bound patients and skin-cleansing of incontinence patients

Properties

Prosept has a creamy and moisturizing consistency, especially developed for dry and sensitive skin and the sensitive skin areas. It contains agents, which emulsify dirt and secretory products while protecting the skin. Mildly scented and unscented versions.
